

Paint Splatter Name Stencil Prints

Supplies for your Name Stencil Prints

You will need:

- 2 pieces of paper for each print
- a pen or pencil to mark out the letters of their name
- a pair of safety scissors
- an old toothbrush or paint brush
- acrylic or poster paints
- a texta or permanent marker

Directions...

1. Draw out the letters of the kids name on one of the pieces of paper in block letters running together. Cut them out carefully using the safety scissors.
2. Sit the stencil on the other sheet of paper. Dip the brush into the paint and use your fingers to flick the bristles so that the paint splatters onto the paper.
3. Peel off the stencil cut out and put the picture aside somewhere laying flat to dry. (lay the stencil out flat to dry as well...)
4. When dry, use the texta (permanent marker) to outline each of the letters in the name and you are done.
